

Thank you for your interest in the National Association of Professional Background Screeners (“NAPBS”) Background Screening Agency Accreditation Program (“BSAAP”). The Background Screening Agency Accreditation Program advances professionalism in the employment screening profession through the promotion of best practices, awareness of legal compliance, and development of standards that protect consumers. The BSAAP Accreditation Standard was developed with broad input from your peers in the background screening community.

The attached application form will guide you in providing the needed documentation and other evidence to demonstrate that your agency conforms to the BSAAP Accreditation Standard. Before applying for accreditation, you should carefully review the BSAAP Accreditation Standard and the corresponding conformity measures. Copies of the Standard and the measures are available on the NAPBS website at www.napbs.com.

Overview of Accreditation Process

The following steps are part of the BSCC accreditation process:

1. The agency desiring to be accredited should obtain and review the Standard and measures. A current version of the Standard and measures are available at www.napbs.com.
2. The agency determines if they are eligible to apply for accreditation. The eligibility requirements are as follows:
 - The agency must have been providing services under the BSAAP Standard for at least one (1) year in order to establish documented compliance with the BSAAP Standard.
 - The agency must agree to comply both with the BSAAP Accredited Agency Code of Conduct and, once accredited, with the BSAAP Standard.
 - The agency must currently, regularly and primarily be engaged in the business of providing employment screening services directly to qualified end-users, such as employers, or businesses.
 - The agency must agree to be subject to and to comply with these BSAAP Policies and Procedures and all other policies adopted by the Council, including without limitation policies regarding the use of the Council's accreditation logo.
 - The Agency must not have failed to adequately respond to any unresolved NAPBS or BSCC complaints or grievances of any kind.
3. The agency is encouraged to attend NAPBS accreditation training sessions as they are available and/or review the training documentation available online in order to fully prepare for their application.
4. The agency should conduct a readiness review prior to submitting their application. Agencies should not submit their applications until they believe they are in conformity with all of the clauses and measures, and can document conformity in an acceptable fashion.
5. The agency should complete and submit the Letter of Intent to Apply for Accreditation Form on NAPBS' website or in hard copy to the NAPBS staff at least six (6) months prior to submitting their application materials.
6. Agencies should then submit the completed application with the required fee to BSCC headquarters. Upon processing of application and payment, agencies will be sent instructions for submitting electronic supporting documentation.
7. BSCC staff/consultants will review application materials to determine whether the application is complete, and the application fee has been paid. Staff will also confirm the agency's conformance with all current eligibility requirements.
8. Applicants with complete applications will then have a period of six months from the date of notification of acceptance of the application in order to complete the self-evaluation process. Extensions may be granted in this time frame for acceptable cause. Applicants must then submit all required documentation in support of their conformity with the Standard.
9. The Auditor will conduct a thorough desk review of the application and self-evaluation materials submitted. There may be requests for clarification of materials provided or some additional

information regarding conformity with specific clauses. This review may include, but is not limited to the following documentation:

- Required policies and procedures
- Copies of cover pages of required documentation
- Job descriptions and resumes
- Required evidence of use of the BSAAP Standard
- Security Plans
- Sample Conformity documents
- Client & Vendor Agreements
- Training Materials
- Client Education Materials
- Proof of Insurance

10. After the Auditor has reviewed all submitted materials, a mutually agreed upon date will be determined for the site visit within a reasonable time period.
11. The Auditor will conduct a one (1) - to two (2) - day onsite inspection at the Applicant agency's primary operating center and up to one (1) additional location determined at the discretion of the auditor and NAPBS staff, if other location(s) are providing services under the Standard*. The Auditor will validate conformity with the BSAAP Standard and Audit Criteria and verify the accuracy of materials submitted as part of the self-evaluation process. This review is designed to reinforce the processes in place and ensure the agency's conformity is not just on paper but integrated into the everyday workflow for the agency. Based on the clause to be reviewed, the auditor may ask to see work in progress in order to verify conformity.

An agency with multiple locations must verify conformity in all locations as the BSAAP accreditation process does not provide for partial or process-based accreditation. It is the agency's responsibility to bring together into one (1) location all applicable employees, process demonstrations, etc. which the Auditor will need in order to complete the audit.

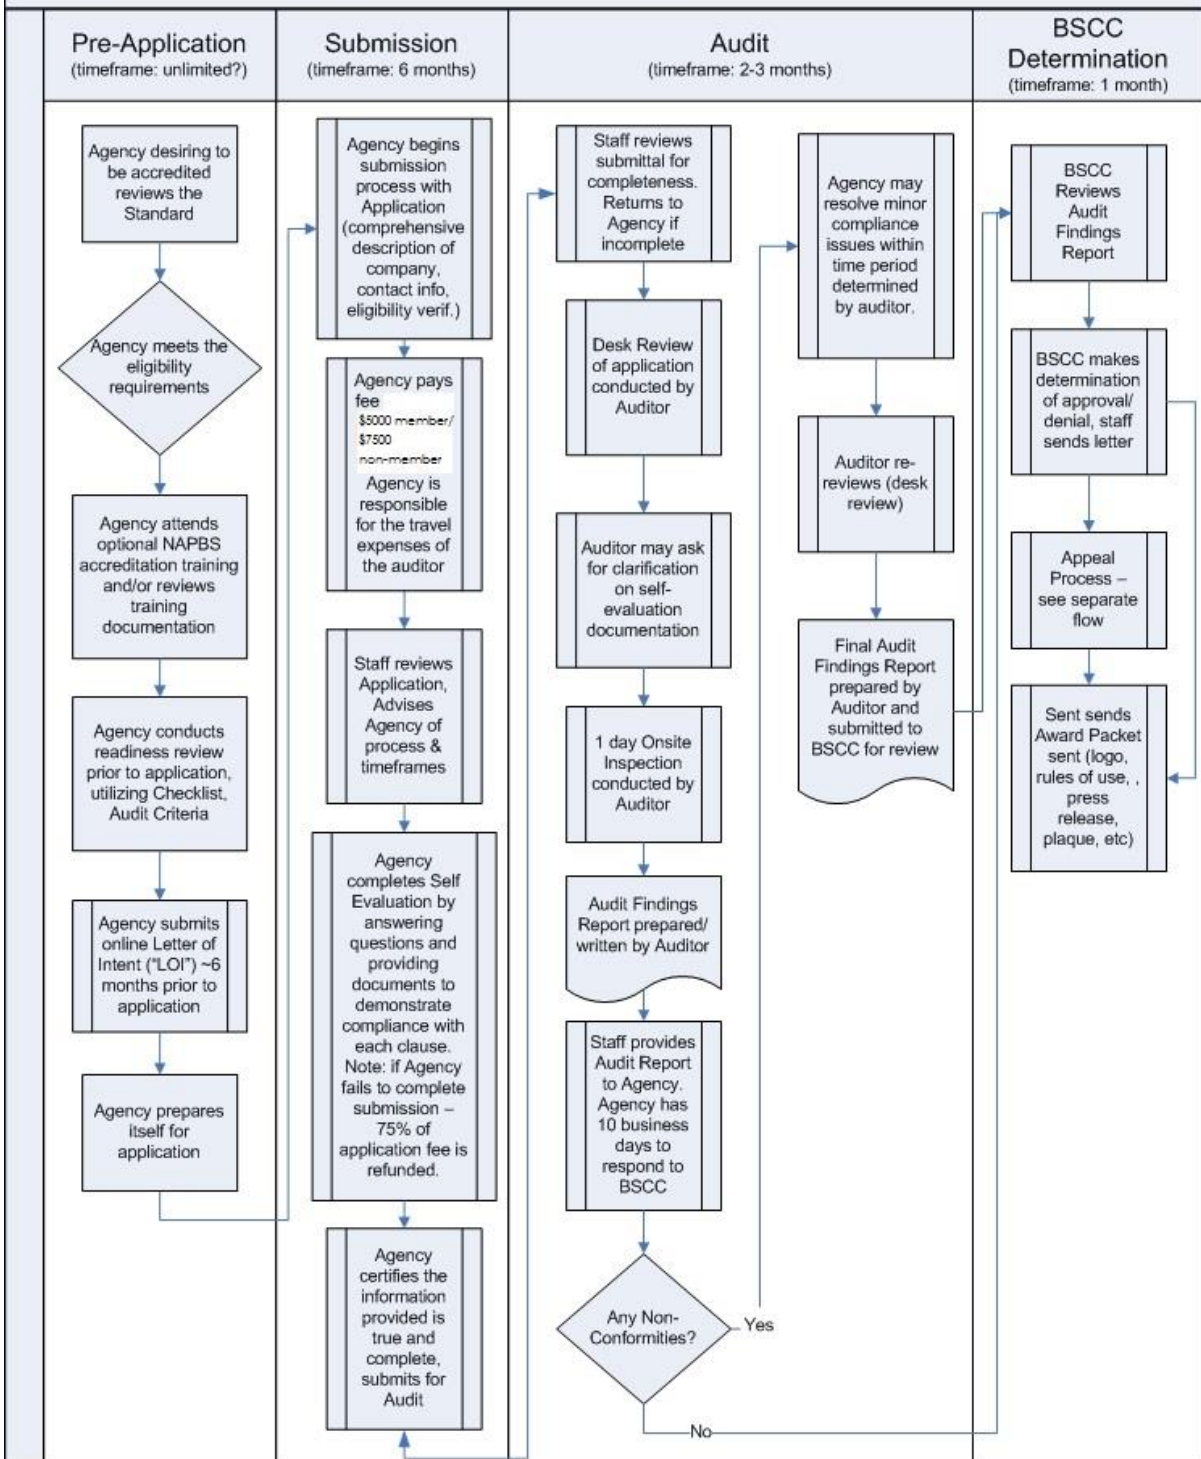

*NOTE: Audit locations may include U.S. locations and outside U.S. locations providing services under the Standard. In extenuating circumstances auditor and NAPBS Staff may determine that additional site audits are necessary.

12. The Auditor will prepare an initial Audit Findings Report which will be made available to the agency within 2 weeks of the conclusion of the site visit. For Opportunity for Improvement(s) OFI(s), the agency has ten (10) business days to respond to the Auditor with any additional information or documentation which addresses any concerns raised by the Auditor. For any non-conformity(s), the agency shall have ten (10) business days to respond to and affirm its intent to continue with accreditation. Following review and consideration of any additional information provided by the agency, the Auditor will prepare a final Audit Findings Report.
13. The BSCC reviews the audit findings and will render a decision regarding the application and this decision will be forwarded by mail to the agency. An official written letter or electronic communication shall be sent to the agency within 10 business days of the conclusion of the

Council meeting where the decision was rendered. No verbal response information will be provided by BSCC or staff regarding Council accreditation decisions.

14. Accredited agencies will be provided with a plaque suitable for framing, an approved press release for media distribution, and graphics/art work with the BSCC logo including an explanation of the right to use of the mark(s).
15. If accreditation is denied, the applicant agency has the right to appeal.

Background Screening Agency Accreditation Program (BSAAP) – 04/15/09

Instructions for Completing the Self-Evaluation

Applicants should follow the instructions below in submitting their BSAAP self-evaluation documentation.

- All applicants should review the BSAAP Accreditation Standard and guidelines prior to completing their self-evaluation. The current official BSAAP Accreditation Standard can be found in the NAPBS website at www.napbs.com.
- Applications must be submitted in the English language.
- Applicants are expected to upload an electronic copy of supporting self-evaluation documentation to BSCC, upon processing of hardcopy application and payment. Instructions for the upload process will be sent once application and payment is received.
- Applicant response information will be uploaded for each particular clause. The clause number should be indicated in the file name for easy reference.
- Applicants are encouraged to provide thorough and clear responses to questions. If referencing a document, highlight or refer to the portion of the document illustrating conformity with the specific clause. No additional points or benefits are provided for multiple documents (such as brochures/flyers/newsletters etc.) when a single sample could adequately provide evidence of meeting the clause.
- Clearly mark all attachments and follow the order of the clause to facilitate a proper review of your submission. All attachments should be identified in the electronic file name. Attachments should be uploaded individually for each clause it supports as addressed in the Standard.
- If an attachment demonstrates conformity with multiple clauses, it must be uploaded for each clause that it is applicable.
- Applicant material is presented to BSCC members in a “blind” fashion allowing the BSCC to render decisions and seek inquiry from the auditor without consideration of the particular applicant. Further, all BSCC members have signed statements agreeing to keep all information reviewed by the BSCC confidential. Also, accreditation application information will be securely maintained and staff or volunteers that are not working on the accreditation program will not have access to the application materials. Additionally, in most cases the entire application would only be reviewed by staff, auditor and BSCC legal counsel. However, data submitted by applicants may be used in an aggregate form for statistical or research purposes.
- Applicants should delete personal identifier information from any sample letters, contracts or agreements.
- All documents submitted to BSCC become property of BSCC and should be marked as *Proprietary and Confidential* by the agency if appropriate. The agency has the right to redact any proprietary information it deems necessary from all documentation. However, the redaction of information should not be of such magnitude to alter the NAPBS’ ability to utilize the documentation to properly review and assess the agencies preparedness for accreditation. Documents which are overly redacted and deemed unusable by the auditor and/or the BSCC may be required to be resubmitted and/or alternate documents may be required.

- Incomplete or incorrectly prepared supporting documentation may be required to be resubmitted when properly completed, or it may result in delays of your review.
- “Not Applicable” or “N/A” responses are not acceptable. Applicants must specify why they believe a particular clause is not applicable to their agency.
- Accreditation staff, consultants, or volunteers may ask for additional information during the course of the review process.
- If any reference materials are in an electronic format or included on your web site, please submit a copy of this information with your submission.
- Applicants will be informed of the BSAAP decision on their submission within one (1) month of the completion of the BSCC review.
- Applicants that are aggrieved by the BSAAP decision on their submission may appeal the decision. Please contact BSAAP staff for the detailed requirements on this process.

Please submit a hardcopy of the application and payment to:

Background Screening Agency Accreditation Program

Accredited Agency Code of Conduct

The Background Screening Agency Accreditation Program (“BSAAP”) Accredited Agency Code of Conduct was adopted by the Background Screening Credentialing Council in February 2009.

Preamble

NAPBS is a not-for-profit, tax-exempt trade association formed to promote, develop, educate, and otherwise further the Employment and Tenant Screening industry. The Background Screening Agency Accreditation program advances professionalism in the employment screening industry through the promotion of best practices, awareness of legal compliance, and development of standards that protect consumers.

The business and affairs of the accreditation program are managed under the direction of the Background Screening Credentialing Council (the “BSCC”). The Background Screening Credentialing Council has been created to ensure firms seeking accreditation meet or exceed a measurable standard of competence in the areas of integrity, security, consumer privacy and legal compliance. The BSAAP Accredited Agency Code of Conduct (the “Accredited Agency Code”) serves as a code of conduct for employees of Accredited Agencies of the BSAAP.

Violations of the Accredited Agency Code may result in sanctions imposed under the policies and procedures as defined by the BSCC. The principles and requirements that comprise the Accredited Agency Code are based upon, and are designed to ensure full conformity by BSAAP Accredited Agency’s and their Employees (“Employees”) with the Accredited Agency Code. At the same time, the Accredited Agency Code and enforcement procedures are not designed to supplant courts of law in the resolution of disputes within the Employment Screening industry. Moreover, the checks and balances built into the Accredited Agency Code and procedures are designed to strike the proper balance between ensuring full conformity with an Agency’s obligations and ensuring the integrity and efficacy of the Accredited Agency Code on the one hand, and protecting Agencies, through the use of reasonable due process, against patently false, malicious or groundless accusations that could result in significant business or personal harm if not properly handled.
